## Agriculture Proposed Amendments to Site Plan Ordinance

§ 229-1 Title, purpose and authority.

Α.

Title. This chapter shall be known and cited as the "Site Plan Ordinance of the Town of Cumberland, Maine."

В.

Purpose. The site plan review provisions are intended to protect public health and safety, promote the general welfare of the community, and conserve the environment by assuring that all development is designed and constructed in a manner which assures that adequate provisions are made for traffic, utilities, stormwater, erosion and sedimentation, wildlife habitat and fisheries, and historic and archaeological resources. Site plan review will also serve to minimize any adverse impacts on neighboring properties and to ensure that new developments will fit in harmoniously to the fabric of the community—while honoring the historical roots of the Town's agriculture-based economy and providing for less costly and time-consuming review of agriculture-related businesses.

[Amended 5-14-2018; ]

C.

Review and approval authority. The Town Planner is authorized to review and approve projects classified as "staff review." However, the Town Planner may refer a staff review project to the Planning Board when the nature of the application warrants a public hearing or poses the potential for significant impacts on municipal facilities or natural resources. The Planning Board is authorized to review all other projects.

§ 229-2 Classification levels.

Α.

There are three four classification levels of site plan review:

(1)

Minor staff review.

(2)

Agriculture- related staff review

(<del>2</del>-<u>3</u>)

Major staff review.

(<del>3-4</del>)

Planning Board site plan review.

В.

The Town Planner shall classify each project to determine the level of review required based on the applicability standards set forth in this section. Staff review is designed for the review of smaller projects, while larger projects will be reviewed by the Planning Board. When calculating square footage as referenced below, include the total area, in square feet, of all floors of the building as measured from the interior faces of the exterior walls, excluding unfinished attics and unfinished basements.

[Amended 11-26-2012; 5-14-2018;\_\_\_\_]

§ 229-11 Expiration of approval.
[Amended 2-25-2013; 6-17-2013; \_\_\_]

Construction of the improvements covered by any site plan approval must be substantially commenced within 12 months of the date upon which the approval was granted. If construction has not been substantially commenced within 12 months of the date upon which approval was granted, the approval shall be null and void. If construction has not been substantially completed within 24 months of the date upon which approval was granted or within a time period as specified by the Planning Board, the approval shall be null and void. The applicant may request an extension of the deadline to commence or complete construction prior to expiration of the period. Such request must be in writing and must be made to the Planning Board. The Planning Board may grant up to two one-year extensions to the period if the approved plan conforms to the ordinances in effect at the time the extension is granted and any and all federal and state approvals and permits are current.

<u>Construction of the improvements covered by any Agriculture-related staff review shall be five (5) years</u> for commencement and 10 years for completion.
