TODAY'S CONSTRUCTION ACTIVITIES

Crew began excavating for and installing 16 inch HDPE water main from approximate STA 9+75 to 7+00 ending just before existing 42 inch culverts.

Crew left trench box in with 16 inch pipe coming up out of it. The area was properly coned off with a spot light and Grover had a person on watch all night.

TOMORROW'S ANTICIPATED CONSTRUCTION ACTIVITIES

TOMOTIVE OF THE TOTAL PROPERTY OF THE TOTAL
Complete installation of 16 inch HDPE water main

QUALITY ASSURANCE

SME on-site to oversee progress, facilitate communications, and inspect erosion control measures.
